CHAPTER HISTORY

In late 1973 the movement to form a chapter of the American Society of Plumbing Engineers in New Jersey was spearheaded by Andy Ciffer in conjunction with a determined group of engineers and affiliates. The Travelodge in Somerset served as the venue for those early meetings. Through the hard work of this group, the required minimum of twenty potential members was achieved and then exceeded, with thirty seven CHARTER MEMBERS being installed. The first Dinner Dance was held on October 19, 1974 at the Suburban Hotel in Summit. Our CHAPTER CHARTER was presented by George Runkle, Jr., P.E. representing ASPE National. Our Twentieth Anniversary Dinner Dance was held on April 1, 1995 at the L'Affaire restaurant in Springfield.

Our CHAPTER has distinguished itself in many ways since its inception. We took an active role in the Barrier Free Movement and were actively involved in the adoption of the National Standard Plumbing Code as the State Plumbing Sub-Code. We continue in this capacity as members of the State Plumbing Sub-Code Committee. Our CHAPTER is the only one in the country with two members who have received the GEORGE RUNKLE AWARD; Ray Lynch in 1994 and Peter Warshaw in 1998.
