What is ASPE?

The AMERICAN SOCIETY OF PLUMBING ENGINEERS (ASPE) is the only organization dedicated to promoting the plumbing engineering profession to both enhance career opportunities for our members and ensure the health, safety, and well-being of the public through the design of safe plumbing, drinking water, and sanitation systems.

WHAT WE DO

- Provide continuing professional education programs
- Publish design manuals, tools, and standards
- Host conferences, workshops, and networking events
- Promote safe and sustainable water and sanitation systems
- Represent the industry in local and national government
- Help develop safe plumbing and building codes and standards

- Plumbing engineers use the principles of fluid flow with engineering calculations to design plumbing systems that transport fluids such as water, wastewater, natural gas, and rainwater throughout buildings.

OUR MEMBERS

Our members are individuals working in various professions related to plumbing system design.

WHAT IS Plumbing Engineering?

Plumbing engineering is a vital part of the design/build construction process. Plumbing engineers use the principles of fluid flow with engineering calculations to design plumbing systems that transport fluids such as water, wastewater, natural gas, and rainwater throughout buildings.
