Commercial Plumbing

HOW THE FUTURE FLOWS

Future-ready plumbing starts with a hybrid approach. Uponor integrates AquaPEX® PEX-a and ChlorFIT® Schedule 80 Corzan® CPVC for seamless, efficient, and reliable water systems tailored to your projects' needs, all from one provider.

A Hybrid Approach to Plumbing Excellence

Uponor AquaPEX® and Uponor ChlorFIT® Schedule 80 Corzan® CPVC (Uponor ChlorFIT) deliver the best of both worlds, from one source, adapting to diverse installation environments and reducing labor time to keep water flowing through buildings smoothly for decades to come.

This complete system is a perfect blend of flexibility, strength, and chemical resistance, engineered to handle high-demand commercial domestic-water applications. Ideal for multifamily, hospitality, and education builds, this blended system provides a complete solution from main to fixture, enhancing workflows, reducing installation time, and improving overall jobsite efficiencies.

The Uponor 25-Year System Warranty

Comprehensive coverage for Uponor PEX-a, ProPEX®, and Uponor ChlorFIT® Schedule 80 Corzan® CPVC piping systems, and 25 years for Uponor ChlorFIT CPVC products when used as a system with other Uponor components.

**Discover the enduring
quality of Uponor**

Corzan® is a registered trademark of Lubrizol Advanced Materials, Inc.

Engineered for Commercial Domestic Water

The Uponor AquaPEX and ProPEX® system from ½" up to 2" - 3" combined with the Uponor ChlorFIT system up to 8" provides all the pipe, fittings, valves, adapters, and accessories needed for reliable, consistent service in risers, mains, and in-suite plumbing applications. With the convenience of a single manufacturer touchpoint providing nationwide distribution, made in America*, you can rely on seamless communication and support throughout your project.

*some product exceptions

Uponor ChlorFIT® Schedule 80 Corzan® CPVC

Engineered to handle the demands of commercial plumbing, Uponor ChlorFIT offers lighter weights compared to metallic piping, while maintaining durability, reducing the physical burden on installers. The system delivers high-pressure tolerance, long-lasting reliability, and tested chemical resistance, to help provide a strong foundation for your building's potable water distribution.

Uponor AquaPEX® PEX-a

With maximum flexibility and reliability, AquaPEX is ideal for various commercial plumbing projects, including areas with tight spaces, existing architecture, and complex layouts. Combining the efficiency of Uponor Logic Plumbing with ProPEX multiport tees along with Uponor Kitting Services provides maximum installation productivity, minimal product waste, and superior system performance designed to last a lifetime.

NEW Uponor ChlorFIT to PEX-a Adapters

Transitioning from Schedule 80 Corzan® CPVC to PEX-a has never been easier with the new ProPEX to Uponor ChlorFIT spigot and socket adapters, available in sizes from ½" to 3". This game-changing offering comes from one provider for all the components you need for the best plumbing systems. With Uponor, enjoy the confidence of system compatibility, quality transitions, and simplified installations.

Enhanced Durability

Uponor piping products resist corrosion, rust, and scale buildup to enhance system longevity and promote reduced maintenance.

Easier Handling and Intuitive Installation

Uponor ChlorFIT, AquaPEX, and ProPEX materials are lighter than traditional metallics for easier transport, handling, and installation, leading to increased jobsite productivity.

Expert Support

From custom specification writing to professional estimation and design services, Uponor offers solutions for precise planning and efficient execution to help save time and money.

Build better with Uponor.

for the best in commercial plumbing.

MADE FOR TOMORROW

A Complete Potable Water Solution

With a comprehensive suite of domestic water solutions, building owners, engineers, and contractors can experience a new standard of excellence in commercial plumbing for efficient, reliable, sustainable systems from one trusted source. **Together, we are leading with water.**

Compatibility Matters

We offer the right materials for your applications, with products designed to work seamlessly as part of an integrated system. By incorporating Uponor PEX-a and Uponor ChlorFIT, our solutions promote optimal material compatibility and efficient performance tailored to commercial potable water systems.

25-Year System Warranty

Comprehensive coverage for Uponor PEX-a, ProPEX®, and Uponor ChlorFIT® Schedule 80 Corzan® CPVC piping systems, and 25 years for Uponor ChlorFIT CPVC when used as a system with other Uponor components.

Enduring Performance

Uponor systems are built to last, delivering long-term reliability and sustainability. From PEX-a to Schedule 80 Corzan CPVC solutions, Uponor products meet today's energy and water efficiency standards while offering the durability contractors trust for decades.
