**GREATER SAFETY,
EFFICIENCIES, AND
PERFORMANCE**

Complete Polymer Piping Solutions. One Trusted Source.

- + Health and safety
- + System longevity
- + Ease of installation and serviceability

Hydronic Piping

Maximizes the corrosion-resistant, long-lasting benefits of PEX for new and retrofit hydronic piping applications

Domestic Water Piping

Delivers reliable and hygienic water throughout the building with polymer piping and fitting solutions that resist pitting, scaling, and corrosion

Radiant Heating and Cooling

Supplies the most comfortable, energy-efficient method for conditioning a space that also improves the indoor environmental quality (IEQ)

Snow and Ice Melting

Protects students and staff from slips and falls and reduces maintenance labor and costs

Turf Conditioning

Provides durable, reliable underground piping systems for safer, higher-performing athletic fields all year long

Belowground Piping

Offers a flexible solution that is easier to maneuver and lighter in weight compared to metallic piping, making it ideal for underground utility tunnel applications

BUILD
Confidence Into
Every Project

Versatile
Piping solutions that optimize both new construction and retrofit buildings

Reliable
Strong connections and durable systems for confident performance

Sustainable
Designs that maximize efficiencies and minimize product installation waste

Support
Hands-on, expert support from bid to design to construction

Uponor AquaPEX® and Uponor ChlorFIT® Schedule 80 Corzan® CPVC deliver the best of both worlds, from one provider, adapting to diverse installation environments and reducing labor time to keep your water flowing smoothly for decades to come. This complete system is a perfect blend of flexibility, strength, and chemical resistance, engineered to handle high-demand commercial domestic water applications.

Corzan® is a registered trademark of Lubrizol Advanced Materials, Inc.

Engineered for Commercial Domestic Water

The AquaPEX and ProPEX® system up to 3" and the ChlorFIT system up to 8" offer all the pipe, fittings, valves, adapters, and accessories you need for reliable, consistent service for risers, mains, and in-suite plumbing applications.

Designed to enrich people's way of life, Uponor school solutions conserve water and energy while providing safer, healthier, more comfortable education environments.

How Uponor Products and Services Benefit Re-Piping and Renovation Projects

Older structures pose many challenges when it comes to renovating a building. GF Building Flow Solutions piping systems provide the lightweight, flexible, durable solution to make installations safer, faster, and easier while also providing greater corrosion-resistance for a lifetime of reliable service. Best of all, projects are backed by a 25-year transferable limited warranty on Uponor PEX, ProPEX, and ChlorFIT piping systems.

- + GF and Uponor provide expertise throughout the project delivery process, from bid to design to construction and beyond
- + Long coils of pipe for fewer joints underground or behind walls
- + Less maintenance, greater longevity, better system performance
- + Flexible pipe to limit disruption to existing structures
- + Ease of installation for project efficiencies
- + No dry fits for improved system reliability
