Uponor Kitting Services

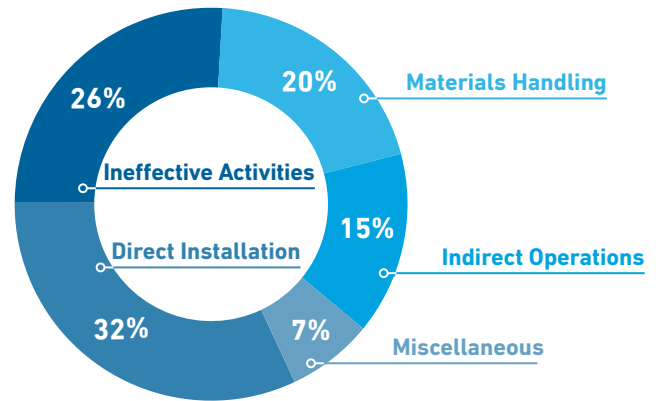

Faster Installations and Improved Accuracy

Studies show that only **32% of a worker's time is spent on direct installation**, while nearly half is lost to material handling and ineffective activities.

Uponor Kitting Services flips that ratio, reducing wasted time, tightening communication, and allowing more hours to be dedicated to actual installation.

Uponor Kitting Services is more than just a box of parts, providing:

- Piping schematics that create installer consistency
- Custom-built kits for individual project needs
- A streamlined process that reduces downtime

Benefits by Construction Phase

Design

- + Connects field and office to minimize rework
- + Provides piping schematic with fitting tags and pipe sizes for easy comprehension

Preconstruction

- + Enables streamlined procurement to improve the purchasing process for greater accuracy and time savings
- + Provides part-numbered kits for easy ordering

Construction

- + Creates consistency across installers/crews to reduce rework and limit callbacks
- + Drastically reduces material handling to speed installs and reduce errors
- + Minimizes field orders to keep crews installing and finishing projects on time

Post Construction

- + Reduces product returns to maximize cash flow opportunities and minimize wasted resource time
- + Allows schematics to be used as as-builts to help support future maintenance, renovations, and compliance needs

Rough-in Kit

Finish Kit

Ideal Applications

- Apartments/condominiums
- Student housing
- Senior/assisted living
- Hotels/motels

Service Options and Pricing

Two kitting service options are available to meet varying customer needs. Note that the **Option 2 prices below are estimates** and actual costs can vary depending on the size of the project and level of customization required. Contact Uponor Construction Services or your local Uponor representative for more information.

Option 1 – No Design

- + Individually packaged kits with materials
- + Kits labeled with room names
- + Shipping (up to 2 shipments)

Requires customer-supplied bill of materials.

Service Cost per Kit

# of Kits	\$USD
<150	\$30
150-300	\$25
>300	\$20

Option 2 – Design with Plans

- + Piping schematic for each unit type
 - + Individually packaged kits with materials
 - + Kits labeled with room names **and numbers**
 - + Kits packaged by floor
 - + Shipping (**up to 8** shipments)
- *Contact Uponor for projects with more than 500 kits.**

Estimated Service Cost per Kit

# of Kits	5 Variations	10 Variations	20 Variations
50	\$42	\$62	\$104
100	\$30	\$40	\$60
200	\$24	\$30	\$40
300	\$23	\$26	\$32
500*	\$21	\$23	\$27

“Kitting creates the ability to do more important things. I’m able to hire Uponor to do part of this project for me; we get the takeoffs done, and then the necessary products are packaged nicely in a box, labeled for each unit. All my warehouse staff needs to do is deliver them to the project, hand them to the installers, and they go right to work. It creates less confusion and chaos in the project.”
