Multifamily Solutions

**COMPREHENSIVE PLUMBING
AND CLIMATE SYSTEMS FOR
MODERN LIVING**

Understanding What's Important to Your Business

- + Quality, reliability, and on-time completions
- + Safe and healthy living environments
- + Partnership and support

Hydronic Piping

Features PEX-a to deliver a durable, reliable, corrosion-resistant solution that provides efficient flow to a building's heating and cooling units

Uponor AquaPort™

Utilizes a building's hydronic heating supply to provide on-demand domestic hot water, providing energy efficiency and hygiene benefits

Domestic Water In-Unit Piping

Reduces waste, decreases hot-water delivery times, and minimizes liability potential with Uponor Logic, providing the ultimate in efficiencies and performance

Uponor Kitting Services

Provides customized, coordinated packaging with ProPEX® fittings and components in individual kits labeled by room; includes materials list, plan view, and 3D isometric drawing for a clear installation plan

Domestic Water Riser and Main Piping

Delivers reliable, hygienic water throughout the building while resisting pitting, scaling, and corrosion

Radiant Heating and Cooling

Maximizes energy efficiencies and system performance while offering supreme occupant comfort and sustainable building design

Snow and Ice Melting

Meets ADA compliance for safe and easy access and protects residents and visitors from injury while also reducing maintenance and labor costs

BUILD
Confidence Into
Every Structure

Versatile
Piping solutions that optimize both new construction and retrofit buildings

Reliable
Strong connections and durable systems backed by an industry-leading warranty

Sustainable
Products and services that maximize system efficiencies and longevity

Long Lasting
Proven with decades of service in structures around the globe

The Complete Multifamily Solution

Whether your project is a new-construction building or the renovation of a century-old structure, Uponor plumbing, mechanical piping, and radiant heating and cooling systems are your complete polymer solution for low-rise, mid-rise, and high-rise properties that provide greater safety, efficiencies, and performance for decades of reliable service.

A Hybrid Approach to Piping Excellence

Leverage Uponor PEX-a in sizes up to 3" and Uponor ChlorFIT® Schedule 80 Corzan® CPVC (Uponor ChlorFIT) in sizes up to 8" for optimal productivity and performance in diverse piping applications.

Corzan® is a registered trademark of Lubrizol Advanced Materials, Inc.

Maximize Budgets, Schedules, and Profitability Potential

Uponor Construction Services and Kitting Services are your trusted resources for high-performing, efficient design and installation solutions to help you deliver projects on time and on budget.

Quality Backed by the Uponor Guarantee

Durable, corrosion-resistant Uponor PEX-a and Uponor ChlorFIT provide reliable, long-term performance with a trusted warranty for added confidence in a system designed and manufactured to last for decades.

[uponor.com/warranty](https://www.uponor.com/warranty)

Designed to enrich people's way of life, Uponor hospitality solutions conserve water and energy while providing safer, healthier, more comfortable welcoming environments.

Uponor AquaPEX® and Uponor ChlorFIT® Schedule 80 Corzan® CPVC deliver the best of both worlds, from one provider, adapting to diverse installation environments and reducing labor time to keep your water flowing smoothly for decades to come. This complete system is a perfect blend of flexibility, strength, and chemical resistance, engineered to handle high-demand commercial domestic water applications.

Corzan® is a registered trademark of Lubrizol Advanced Materials, Inc.

Engineered for Commercial Domestic Water

The AquaPEX and ProPEX® system up to 3" and the ChlorFIT system up to 8" offer all the pipe, fittings, valves, adapters, and accessories you need for reliable, consistent service for risers, mains, and in-suite plumbing applications.

Leverage Uponor Construction Services, Kitting Services, and Prefabrication Services

Start your new construction or renovation projects off right with the design engineering professionals of Uponor Construction Services, and keep the efficiencies going throughout the project lifecycle with Uponor Kitting Services and Uponor Prefabrication Services.

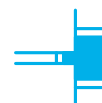

Uponor Kitting Services provides customized kits tailored to your specific project, and Uponor Prefabrication Services provides prefabricated parts built in a controlled environment, to help improve jobsite productivity, lower labor and material costs, and enable better management of project schedules.

Uponor Case Studies

Avalon Bay Apartments

↑ RELIABILITY | ↑ EFFICIENCIES | ↑ PERFORMANCE

Specifics

- 360-unit complex
- New construction

Installer

Wolfe Plumbing

Uponor Solutions

- Uponor AquaPEX® for domestic water risers, mains, and in-unit piping
- ProPEX® fittings
- Uponor Construction Services, field training, and job-site walks

Challenge

Incorporate a piping solution that installs fast and provides long-lasting performance.

Solution

Using Uponor PEX offered greater installation efficiencies and better system performance.

The Homestead at Rochester

↑ COST SAVINGS | ↑ FASTER INSTALLS | ↑ DURABILITY

Specifics

- 140,000 square feet
- Expansion on existing structure

Installer

Superior Mechanical

Uponor Solutions

- Uponor AquaPEX for domestic water
- Wirsbo hePEX™ for hydronic hot-water heating and chilled-water cooling

Challenge

Provide expansion project with a durable solution for both domestic water and hydronic heating/cooling systems.

Solution

Switching from steel and copper to PEX saved on install costs and increased job-site productivity.

Bricker Residence

↑ EFFICIENCIES | ↑ ENERGY COSTS | ↑ PERFORMANCE

Specifics

- Nine-story existing residence
- Retrofit electric to hydronic

Installer

Modern Niagara

Uponor Solutions

- Wirsbo hePEX for hydronic heating and cooling
- Uponor PEX-a pipe supports
- ProPEX brass transition fittings and flange kits

Challenge

Retrofit electric heating systems to hydronic for greater efficiencies, lower energy costs, and better system performance.

Solution

Flexible Wirsbo hePEX advantageous in tight areas, helping meet construction schedule.

Wormley Row

↑ ENERGY EFFICIENCY | ↑ COMFORT | ↑ SUSTAINABILITY

Specifics

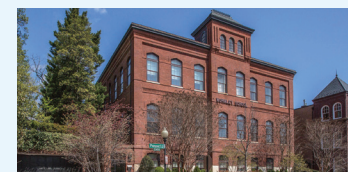

- Century-old landmark building
- Renovated into condominiums

Installer

Foley Mechanical

Uponor Solutions

- Wirsbo hePEX for radiant floor heating and snow melt systems
- TruFLOW™ manifolds
- System controls

Challenge

Add energy-efficient, luxurious comfort to a building on the National Register of Historic Places.

Solution

Flexible Wirsbo hePEX maneuvered easily throughout the existing structure to provide a smart solution for residents.
